

WAKE FOREST  
UNIVERSITY

Translational Science Center

### Summer Internship Program Application

Please complete the information below and return it to Heather Chapman at [chapmahn@wfu.edu](mailto:chapmahn@wfu.edu) by March 4, 2016. Also, please arrange for one letter of recommendation to accompany your application (email is sufficient). Upon initial evaluation, potential candidates will be contacted for an interview with a prospective research advisor. Selected candidates are expected to work 40 hours per week for 10 weeks on a schedule and project agreed upon with their research advisor.

Have you had any previous research experience? If so, please briefly describe.

If accepted into the TSC Summer Internship program, would you need summer housing or assistance? If so, please explain.

## **Summer Internship Program Application**

Please explain your interest in working with the Wake Forest University Translational Science Center, including why you want research experience? What is your specific area of interest, and possible faculty/projects you'd be interested in working with (see web page: <http://tsc.wfu.edu/>). Also please include your overall career objective (500 word maximum, can use another sheet).
